WORK EXPERIENCE

Backend Developer

Arido Software, 2022 - News

- Backend development with Java Spring Boot, SQL Server, Docker and Jenkins.
- International customer service.
- The company works on a project basis. I am currently working on one for General Electric (GE Digital) overseas. We are doing the new version of their Proficy system (it is a set of MES (manufacturing) applications) which is over 15 years old and we are doing WEB and bug fixing together with 12 teams from all over the world. All calls and communications are in English.
Unit testing with Spring Boot and integration testing with
- Docker and Spring Boot

Workshop Manager and Foreman

Universo Digital, 2011 - 2021

- PC hardware and software repair. Customer service.
- General manager.
