

GUILLERMO MANUEL REQUENA

SOFTWARE ENGINEER

ABOUT ME

I am a Software Engineer with solid experience in backend development and technical team coordination. I have worked in dynamic and demanding environments, nationally and internationally, participating in high-impact projects. I specialize in designing robust and scalable solutions using technologies such as Go, Java, Javalin, Docker, and CI tools. I stand out for my ability to adapt to different teams, methodologies and technologies, always maintaining a focus on quality and system efficiency.

EDUCATION

Teclab Technical Institute
(In Progress)
Advanced Technical Degree in
Programming - 2024 - 2026

Universidad Nacional de Córdoba
Computer Engineering &
Biomedical Engineering, 2014
(Incomplete - 25/50 subjects
passed)

Colegio Normal "Dr. Juan Llerena"

High School Diploma in Humanities and
Social Sciences, 2012

WORK EXPERIENCE

Software Engineer

Mercado Libre - September 2024 - Present

- Backend development using Java and the Javalin framework, in high-demand and scalable environments.
- Participation in the evolution of distributed and resilient architectures within key platform systems.
- Integration of tools such as Docker, Jenkins and automation processes oriented toward development best practices.
- Collaboration with multidisciplinary technical teams in dynamic, high-impact projects.
- Contribution to automated testing (unit and integration) and continuous quality process improvement.
- Work with other languages such as Go based on specific project requirements.
- Internal communication and documentation in Spanish.

Backend Developer - Arido Software, **2022 - September 2024**

- Backend development with Java Spring Boot, SQL Server, Docker and Jenkins.

Engagement with international clients.

The company works project-based. I worked on a project for General Electric (GE Digital), developing the new version of their Proficy system (MES manufacturing platform, 15+ years old), making it web-based and resolving issues with 12 global teams. All communication in English.

- Unit testing with Spring Boot and integration tests with Docker and Spring Boot
-

LANGUAGES

Spanish - Native

English - C1 Full Professional

EFSET C1 certified - PET Cambridge
passed.
